In re Application of :
HARLEY et al. : DECISION ON APPLICATION
Application No. 10/562,374 : FOR
Filed: 03/09/2007 : PATENT TERM ADJUSTMENT
Attorney Docket No. 510/002 :

This is a decision on the REQUEST FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT DETERMINATION, filed March 10, 2010, which is being treated as a petition under 37 CFR 1.705(b). Applicants request correction of the patent term adjustment from three hundred sixty-seven (367) days to four hundred forty-seven (447) days partly on the basis of the Office taking in excess of three years to issue the patent.

To the extent the instant application for patent term adjustment requests reconsideration of the patent term adjustment as it relates to the Office's failure to issue the patent within three years of the filing date, the application for patent term adjustment under 37 CFR 1.705(b) is **DISMISSED as PREMATURE.**

Knowledge of the actual date the patent issues is required to calculate the amount, if any, of additional patent term patentee is entitled to for Office failure to issue the patent within 3 years. See § 1.702(b). (This is true even where a request for continued examination (RCE) was filed). The computer will not undertake the § 1.702(b) calculation until the actual date of issuance of the patent has been determined. Likewise, the computer will not calculate any further Office delay under § 1.702(a)(4) or applicant delay under § 1.704(c)(10) until the actual date of issuance of the patent has been determined. As

such, the Office can not make a determination on the correctness of the patent term adjustment until the patent has issued.

Requesting reconsideration of the patent term adjustment to be indicated on the patent under 37 CFR 1.705(b) based on the initial determination of patent term adjustment and a projected issuance date of the patent (or even the filing date of the request for continued examination) is premature. Accordingly, it is appropriate to dismiss as premature such a request.

Rather than file an application for patent term adjustment under 37 CFR 1.705(b) contesting the 37 CFR 1.702(b) calculation at the time of the mailing of the notice of allowance, applicants are advised that they may wait until the time of the issuance of the patent and file a request for reconsideration of the patent term adjustment pursuant to 37 CFR 1.705(d). As the USPTO does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent. However, as to all other bases for contesting the initial determination of patent term adjustment received with the notice of allowance, applicant must timely file an application for patent term adjustment prior to the payment of the issue fee¹.

To the extent that the instant application for patent term adjustment requests reconsideration of the patent term adjustment at the time of the mailing of the Notice of Allowance, the request is GRANTED TO THE EXTENT INDICATED.

¹ For example, if applicant disputes both the calculation of patent term adjustment under 37 CFR 1.702(a)(1) for Office failure to mail a first Office action or notice of allowance not later than fourteen months after the date on which the application was filed and under 37 CFR 1.702(b) for Office failure to issue a patent within three years of the actual filing date of the application, then applicant must still timely file an application for patent term adjustment prior to the payment of the issue fee to contest the calculation of Office delay in issuing a first Office action or notice of allowance. See 37 CFR 1.705(b) and 35 U.S.C. 154(b)(3)(B). A dispute as to the calculation of the § 1.702(a)(1) period raised on request for reconsideration of patent term adjustment under 37 CFR 1.705(d) will be dismissed as untimely filed.

The Office has updated the PALM and PAIR screens to reflect that the corrected Patent Term Adjustment (PTA) determination at the time of the mailing of the Notice of Allowance is **twenty-two (22) days**. A copy of the updated PAIR screen, showing the corrected determination, is enclosed.

A review of the application history confirms that applicants' characterization of the basis for and the amount of reduction of three hundred forty-five (345) days of patent term in this application at the time of the mailing of the notice of allowance are proper.

In view thereof, the corrected determination of patent term adjustment at the time of the mailing of the notice of allowance is **twenty-two (22) days** (367 days of Office delay - 345 days of applicant delay).

Applicants are reminded that any delays by the Office pursuant to 37 CFR 1.702(a)(4) and 1.702(b) and any applicant delays under 37 CFR 1.704(c)(10) will be calculated at the time of the issuance of the patent and applicants will be notified in the Issue Notification letter that is mailed to applicants approximately three weeks prior to issuance.

The Office of Data Management has been advised of this decision. This matter is being referred to the Office of Data Management for issuance of the patent.

Telephone inquiries specific to this matter should be directed to the undersigned at (571) 272-3211.
